

ICECATCH® Gelpack

ICECATCH® gelpacks are ideal for the safe transport of your temperature-sensitive products. The water-based coolant that the gelpacks contain can be reused for many cooling cycles without any loss of quality, is made of only non-toxic ingredients and can be disposed of in the normal

household waste. All the materials used fulfill the highest demands on durability and are free of harmful substances. ICECATCH® gelpacks are approved for laboratory, pharmaceutical and food use.

Technical Data

- * Melting range +/- 0°C
- * Phase transition 0°C
- * Thermal capacity: liquid 4.2 kJ/kg K, solid 2.08 kJ/kg K
- * Latent heat: 330 kJ/kg
- * Spreading of heat absorption around 0°C

Key Advantages:

- * Reliable temperature control through the use of immobilized coolant
- * Robust PA/PE film – Approved for food
- * Conforms to FDA and EU regulations, non-toxic substances
- * Water-based cool packs
- * Maximum impermeability thanks to our many years of experience in production technology and material selection.
